## A new way to look at work injuries:

All injury is a result of the body NOT being able to absorb force. This ability is NOT a physical conditioning or strength ability it is a neurological ability.

V:1.2

**All work forces:**  
Over 90% of all workers  
are neurologically unable to  
absorb force.  
Neurologically they have no  
shock absorbers.  
Is it any wonder why we  
have so many injuries?

## The Solution:

The ONLY way to drastically change work place injury is to address the neurological inefficiency **CAUSING** the injury.

# Risk Prevention Program For All Business Owners

V:1.2

## STEP 1:

### **Neuro Efficiency Screening.**

We can screen every one of your employees to determine who is neurologically efficient or not.

This test determines if the nervous system is sending a fast enough signal to allow the muscles to turn on fast enough to absorb force.

This test takes less than 10 minutes.

## STEP 2:

### Neuro Reset.

All those who fail this test are a high risk for becoming a claim by being injured.

We will reset their nervous system to allow them to be able to absorb force.

Resetting the ability to absorb force will drastically reduce your claims.

## ARPwave patented Neuro Therapy & Neuro Recovery.

- In the screening process we are going to uncover employees in pain, employees with repetitive task issues and employees at high risk which have NEVER been treated.
- These are NOT recordable at this point.
- By us treating them with Neuro Therapy and Neuro Recovery we PREVENT them from being a recordable.
- This is a huge reduction in your costs.

## Speed Up Recovery From All Present Injuries

The other way we can help you control your costs is to speed up the recovery of all employees who are hurt or recovering from surgery.

This has been our highly publicized claim to fame over the last 15 years.

We have treated over 300,000 patients with better than a 95% success rate of eliminating pain, eliminating atrophy, and speeding up recovery of all injury and surgery.

## Prevent Claims.

We have thousands of the most elite athletes in the world as clients PRIMARILY because we prevent injury by increasing their ability to absorb force.

We have over 15 years perfecting these programs with the highest possible risk clients, professional athletes.

No matter how many safety programs you have in place, no matter how effective your wellness programs are, no matter how much research you do if your employee can not absorb force it will cost you.

# The Next Step:

**Schedule A Screening Of  
Your Home Office Staff.**

**Let us demonstrate to you  
how this program can give  
YOU control over your costs  
and  
increase all of your  
employees productivity.**
